it! terrible story...don't botherVon yvonne hopkinsI did not like this story. Dallie was so insensitive and cruel. And he slept with hundreds of women and Francesca knew this but she STILL gives herself to him. SEP gave him all the advantages over her and she had none over him. The story was too one-sided. He treated her like dirt and she accepted it. I was so thrilled when she left him. Unfortunately the story did not end there. I kept hoping she'd never see or think of him again. Maybe bring in another love interest who was worthy of her and who could love her. But no. SEP apparently still had unrealistic hopes for Dallie being the love interest. The book had a lot of boring parts, too. Who cares about Dallie and Holly's romance? Why bother to tell their entire story? What is the point? I REALLY HATED that part of the story. Dallie did not deserve Francesca. He was so unfeeling toward her. I thought it very improbable that she could fall for him with the way he treated her. And then when she left him (for years) he never bothered to look for her...he hardly even thought of her. This does not redeem him at all in my mind. This does not convince me that he loves her or that his feelings might change. Of course, she pines for him and thinks about him often. How utterly pathetic. He didn't suffer when she was out of his life. Then all of a sudden their back in each other's company and they are in love? I don't think so. I didn't care about Dallie and I especially didn't see the point of rehashing his old romance with Holly. Maybe those two should've gotten back together since he thought more about her than about Francesca. I'll never read this story again and wish I'd never read for the first time.7 von 7 Kunden fanden die folgende Rezension hilfreich. Warning - a very "80's" book...Von Suzanne B. KellyEveryone knows SEP is a good writer, able to come up with interesting characters from wildly disparate backgrounds who somehow get together, but this book is not one of her greats. First off, it suffers what I consider an "80's disease" - a Sidney Sheldon/Judith Krentz - like obsession with designer names, foreign princes, descriptions of yachts, and lots of pre-AIDS catting around. Secondly, its characters are not all that endearing: our heroine is obsessed with looks, money, and success, and our hero is obsessed with bimbos and failure. He neglects to tell her he's married; she neglects to tell him she had his son. I had a hard time liking these people, wondering if it was worth the effort to sort through several relationships and lots of confusing flashbacks. I don't feel I'm giving away too much here--if you like SEP, you'll struggle through it anyway--I just wish someone had warned me what I was in for.4 von 4 Kunden fanden die folgende Rezension hilfreich. DisappointedVon Ein KundeAfter devouring all of SEP's other books, I had this one on order for over a month. I finally received it, settled down and was thoroughly disappointed. I couldn't get into it, it was very slow moving, the story unbelievable and the cat fight where everyone stood around watching was uncalled for. I was really disappointed. Sorry.

KurzbeschreibungShe was the most beautiful British bauble in Europe's jet-set playgrounds. Now she's broke, furious, and limping down a backwoods road in an ugly pink Southern Belle gown. Hes a tall, lean Texan whos sure to regret stopping his car for this woebegone, surly Scarlett? Meet Francesca Day and Dallie Beaudine, two incredible characters whose tangled love affair is the adventure of a lifetime.PressestimmenLaVyrle Spencer Refreshingly original, witty and touching.Elizabeth Lowell What the world needs is more books by Susan Elizabeth Phillips.Publishers Weekly This delectable confection offers unadulterated entertainment.
