Minnock, co-owner of a popular video game firm, is found brutally murdered. Eve Dallas takes the case. And it's not an easy one for Eve. Bart seemed to be a great, happy guy that nobody had trouble with. But finding a motive is not the only problem for Eve. Another is to find out how Bart was decapitated without anybody else in the room. Eve must get past her own convictions about what is possible in the real world to close this case and find justice for Bart. What I love about "Fantasy in Death" is that it concentrates on friendship. So there are lots of interactions between Eve and her colleagues, especially Peabody and Nadine. The scenes between Nadine and Eve are awesome and I like how the dynamics in their friendship are portrayed. I was relieved that the new case is not so dark and hard to read like the ones in "Kindred in Death". Another thing I love about "Fantasy in Death" is that this time Eve is the strong one in the relationship with Roarke. Roarke has some trouble to deal with the case because he knew the victim but Eve is there for him just like he is always there for her. It's awesome to see how she handles the fights with him and is understanding even when he hits her below the belt (for once Roarke is not 100% perfect!). But of course there are also some sexy and very sweet scenes between Eve and Roarke and whenever I read about them as a pair I'm just happy. The mystery part of the story was very interesting and I didn't know who the bad guy was until it was revealed. So, "Fantasy in Death" is another awesome book by J.D. Robb and I'm already excited to read "Indulgence in Death", coming in November 2010.

Von S. Fischer This is the 30th novel of the 'In death / Eve Dallas'-series, so if you're new to this, you should start with 'Naked in death' since the background is very helpful to understand these later novels. A young man, computer genius, game developer, and owner / partner in a computer game company, is found dead in his game room. His head has been cut off with a sword although he was alone in the room and there seems to be no logical explanation for how he could have been killed playing a holographic game. But Eve soon suspects that one of the young man's partners / friends had a hand in it. To understand the technology, she once again needs the help of her husband, multi-billionaire Roarke... The idea isn't bad, but I felt the book dragged in the middle, especially since the reader knows pretty much from the start what happened while Eve doesn't find out until almost the end. There are several strong scenes and ideas, but all in all I felt this was a comparatively weak entry in the series. It's still worth reading, though.

Von Kindle-Kunde Wie immer spannend und flüssig geschrieben. Man kann es nicht aus der Hand legen. Diese Reihe macht schtig, deshalb kaufen, damit man sich in dieser Welt verlieren kann.

Kurzbeschreibung In this thriller in the #1 New York Times bestselling In Death series, it's game over for the criminals who cross Lieutenant Eve Dallas as she investigates the murder of a virtual reality wunderkind. Bart Minnock, founder of the computer gaming giant U-Play, is found in his locked private playroom, in a pool of blood, his head separated from his body. Despite his violent end, Eve can't find anyone. Her girlfriend and business partners included who seemed to have a problem with the enthusiastic, high-spirited millionaire. Of course gaming, like any business, has its fierce rivalries and dirty tricks as Eve's husband, Roarke, one of U-Play's competitors, knows well. But Minnock was not naive, and he knew how to fight back in the real world as well as the virtual one. Eve and her team are about to enter the next level of police work, in a world where fantasy is the ultimate seduction and the price of defeat is death...

Pressestimmen Perennial No. 1 Robb takes the locked-room mystery to a whole new level in her latest gritty puzzler. As always it's the interpersonal relationships and character connections that breathe real life into her long-running and always riveting series. A most excellent addition!
