Von Alexa Land : Feral (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Feral (English Edition):

KurzbeschreibungHe was watching me.I sensed his presence weeks before I saw him. Day after day, I peered out into the woods beside the lake house, unable to shake the feeling that someone was out there. But I never caught a glimpse of him. Eventually I convinced myself it had to be my imagination, that spending so much time by myself was starting to mess with my mind. I was so wrong.So begins Nathaniel Logans story. Nate is a twenty two year old college student, reeling after a recent breakup while struggling to find his way in the world. Hes spending the summer at his stepdads lake house in Northern California, where hes supposed to be finding himself. But what finds him instead will alter the course of Nates life forever.This paranormal erotic gay romance contains explicit language and graphic sex. For adult readers only.
