Von Carmen Jenner : Finding North (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised Finding North (English Edition):

KurzbeschreibungRed Maines blue-collared bad boy, North Underwood, has a dirty little secretWill Tanner.Friends

since kindergarten, North had been the one to jump first, and his fall into Wills bed ten years ago had been no exception. Will and North had been inseparable, but things change, people grow apart, and even a blazing flame can dwindle to a dying ember over time. The more things change the more they stay the same. After a run in with a bottle of Bundy rum, Will and North find themselves in a compromising and all too familiar position. Blurred lines, bad decisions, and one wrong foot after another lead these two down a spiral of sarcasm, secrets, and sex, but when Norths hetero status is called into question he cant figure up from down. And despite Will telling himself he wouldnt fall again, hes head over heels and wandering without a compass. Love is love. Love is truth. Love shouldnt be this damn hard to figure out.
