Von Danielle Steel : Fine Things before purchasing it in order to gage whether or not it would be worth my time, and all praised Fine Things:

KundenrezensionenHilfreichste Kundenrezensionen3 von 3 Kunden fanden die folgende Rezension hilfreich. Her best workVon Anne"Fine Things" was the first Danielle Steel book I ever read, probably 10 years ago by now. I was up

well into the night frantically turning the pages to see what would happen, and I was stunned to find myself in tears more than once. I can't emphasize enough the emotional impact of this story. This is also one of the few times that DS has written a story primarily from the male perspective, and she did it extremely well -- in fact even better than some of her recent books have written about women! Bernie isn't your run-of-the-mill hunky dreamboat -- he's a regular guy with problems in the romance department and an interfering mom to boot. His relationship with Liz and her struggle with cancer was truly heart-wrenching. If you have to read just one Steel novel, make it "Fine Things".

Von Ein Kunde

After reading Fine Things by Danielle Steel, I was in love with the main character, Bernie Fine. Her book showed how a man fell in love with another woman, child and all. Their love was so strong, it conquered whatever was thrown at them. This book made you cry, laugh, dream, fantasize about a modern day Prince Charming. I feel men and women will enjoy this book. It's my favorite

Von Diana

Fine Things, in my opinion, is one of the best examples of Ms. Steel's writing. She clearly shows her talent with this one! Your heart automatically goes out to our hero, Bernie, as he expertly faces the never ending traumas in his lifetime. The tragic events that take place, yet the humorous dialogue given from Bernie's Jewish mother, help to shape Steel's best book yet!

Kurzbeschreibung

Smart, likable, Bernie Fine was the wonder boy of Wolff's, New York's most glamorous department store. A senior VP moving up, he arrives in San Francisco to open a West Coast store. His career is skyrocketing, but his life is lacking a center. When he looks into the wide, innocent eyes of five-year-old Jane O'Reilly, and then into the equally enchanting eyes of her mother, Liz, Bernie knows he has found what he has been looking for. Bernie thought he had found love to last a lifetime, but when Liz is stricken with cancer shortly after the birth of their first child, time becomes painfully short. Alone with two children, Bernie must face the loss and learn how to move on. New people, new experiences, a new life alone with two kids. He meets it with courage and humor, and learns some of life's hard but precious lessons as he does.

From the Paperback edition.

From Library Journal

Bernard Fine is happy with his life. In his early 30s, he has just been made senior vice-president of Wolff's Department Store in his hometown of New York. He is not pleased, therefore, when he is sent to California to open up a posh new Wolff's in San Francisco. His luck changes, though, when he falls in love with an enchanting five-year-old named Jane, and with her mother, Liz O'Reilly. Jane adores strong, sensitive Bernie and all three are blissfully happy until tragedy strikes the Fine family. In short, this is a story about the power of love and the unity of family to surmount grief and misfortune. The narrative moves slowly in parts and the dialogue is somewhat trite, but the characters are likeable and the story entertaining. Sure to be in demand by Steel fans. Literary Guild and Doubleday Book Club main selections.
