More than just smut....heartache, tragedy and redemption wrapped into this bookVon LittleDarlingAfter reading the excerpt for Hells Knights during the Release Day Event, I was expecting lots of smuttiness and dirty hot sex and not much of a

story. Boy, was I wrong. Hells Knights is not at all what I expected. Don't get me wrong, they do get down and dirty and it is so hot it will melt your panties off, but the story also has so much depth, heartache, tragedy, sadness, redemption, forgiveness and suspense in it, that I felt a bit like a punching ball of emotions. Damn was it good though. My jaw kept on dropping so far, I had to retrieve it from my downstairs neighbours and WTF became my mantra during this book. I honestly don't even know where to start. Often in biker books you will have a female character that is either a bit on the dumb side just thinking with her vagina or you'll have the innocent broken chick that needs to be saved. Not in this one, hell no. Addison is a force to be reckoned with. Having lived through terror and horror, she wears the scars and bears the pain, but she doesn't let anyone walk over her. She knows what she wants and what she doesn't want and no one better gets in her way. I loved the versatility of her character. Tough and sassy, at the same time vulnerable and caring. She is a fighter and she doesn't give up. No wonder Cade is attracted to her from the first moment they meet. But she has a hard time trusting him or anyone for that matter and it takes her a while to realize not everyone is out there to hurt her or leave her. There were moments her actions might have been silly or annoying, but in the light of her past more than understandable. I adored the hell out of her. Cade on the other hand is pure alpha-male biker badness. Possessive, crude and cocky in every sense of the word. But at the same time he is protective, understanding, sympathetic, sweet and caring. And oh so sexy. Having his own demons to fight, he understands what it means to live with pain and guilt as Addy does and therefore does not judge her for her past or look down on her. Instead he absolutely falls for her while at the same time not allowing her to get away with the s*** she pulls because of her past. He is good for her and did I mention he is damn sexy. I mean seriously, the scene on his motorbike it made the smoke alarms in my house go off. I love how the story flows. It seems natural and real. Surely not the norm, but it fits the background and the situation of the people involved. Not to mention the suspense towards the end and some of the twists and turns in between holy hell, how did Bella Jewel come up with this. I was speechless. And she doesn't shy away from quite gruesome detail which makes the story even more emotional and raw. You know what I mean when you read it. I was about to throw up alongside Addy. The book was blunt and at times downright brutal and I couldn't love it any more than I already do. Some side characters that stood out to me, have totally won my heart too. Jackson, Addison's father, is this bad-ass biker with a huge heart. He turns into the Papa Bear trying to protect the cub, while still being all bad-ass macho alpha-male biker. When his relationship with Addison started to bloom and they finally started to feel close, I was so happy for him and Addy. He had lost so much and it was nice to see him getting some of it back. And Spike oh sweet Spike, who gets his name from having spikes in his you know what Yeah, you read that right. He is a tortured soul due to the loss of his wife. He blames Cade, blames himself and seems bitter and lost. But there is so much wit, heart and sarcasm in him, I couldn't wait for his story. This was a seriously awesome book and Bella Jewel made her debut count. This book made me want to sit in a corner, rock gently back and forth and try to gather my emotions, thoughts, brain, heart, panties everything. It was that good. 5+ surprising, panty-melting, brain-numbing, heart-stopping, tragic, hormone-stirring stars. 1 von 1 Kunden fanden die folgende Rezension hilfreich. Hot, dark, strong Von Magritte You like Romance? You like hot alpha Men? You like when these men are inked, pierced Bikers? You like smart, strong hrones? You like women who have got a real hard life and survived in a splendid manner? You like love, lust and action? Well don't hesitate... this is your book. Addison has had the worst imaginable life (and I refuse to spoil you this, she should be telling you herself). When her mother dies she looks for her father, president of a Motorcycle club for help. What she does not expect is Cade. I have to admit I did not expect Cade either. Hot... hot ... hot... As he repeats it several times, he does not play games: takes and protects what he wants. I liked the characters really a lot. There was a lot happening and when there was nothing happening they had hot sex, really hot... I just felt their attraction and their love to be too fast, but it is often like that in books so... why not. The story and the writing were good. The good part is that there are more books of this series.. So get ready for more alpha males. enjoy the read MBTM0 von 0 Kunden fanden die folgende Rezension hilfreich. Not deep, but really entertaining! Von Tea P This was a quick read for a Sunday afternoon. The story was not deep, but sure entertained me. Even though Addison made a lot of stupid decisions out of stubbornness and acted weird in some situations, I liked her from the beginning. What she had to endure while living with her mother was awful. I didn't really understand how she acted with Cade and her father in certain situations. Especially the sex scenes (really hot, but quite a lot) were a little disturbing considering her past but I still liked Addi and the story in general. And Cade is really hot! I think he even got a sweet touch under all the orders he barked out. I enjoyed this book and am definitely going to read the stories about Spike and Jackson.
