Brown BastesVon Ein KundeIn "Hidden Fires", Sandra Brown bastes her readers with sweeping strokes of romance and action set in the days when Railroads were king.We meet Lauren Holbrook as she makes a devilish deal to enter a wealthy Texas family. Her relationship with Jared Lockett begins as raw as uncooked veal.As the plot continues, enter Jared's tyrannical mother, Olivia Lockett. Despite her attempts to char chaos in all the characters lives, we find

ourselves pulling deeply for Lauren Jared. Although I prefer Ms. Brown's more recent novels, I did enjoy this romp of a romantic read. Hidden Fires Von KELLIE MARTIN Desperate to escape her past, beautiful preacher's daughter Lauren Holbrook arrives in Texas with the hopes of working for the prestigious Lockett family.. Instead of offering her a job, the family insists that she marry the family heir, a rogue with a reputation that precedes him, Jared. Unbeknownst to Lauren and Jared, their lives will be changed forever. With a great plot and a variety of characters, Hidden Fires is a book that all romantics at heart must read. I give this book two thumbs up and five stars. You must read it! 3 von 3 Kunden fanden die folgende Rezension hilfreich. To say I loved the book would be an understatement! Von Ein Kunde I have only recently started reading romance novels. I stumbled upon S. Brown and found several of her books "typical". This one is no exception. Yet, I was absolutely engrossed in it. I really felt the pain Jared heaped on Lauren, and in return, himself. I enjoyed the dialogue, the tension, and the sweet gestures between the main characters. All scenes were tasteful and erotic. I will definitely recommend this particular novel to anyone with a romantic heart.
