Book 4, Author: Harmony Raines Reviewer: Ingrid Stephanie Jordan Genre: #SciFi #Aliens #Colonization My Score: 4 Stars Well I came in the middle of the series with book 4 I have not read one, two or three which is something I don't do normally but being new to this Author our communication is off, from what I understand it's okay read 1st. But hey everyone wants to win the Lottery right. Tamzin keeps having cough spasms she knew she's going to die here on Earth, it is so polluted with acid rain and the dust clouds you can't breathe. She wasn't going to win the lottery people that lived in the desert sand like her trying to make some money and they really didn't they had no food to eat. Then a spaceship came looking for her, she won she was getting off earth and going to the Planet Karal somewhere nice to breath. Yep it was a hardship all she had to do is have sex and breed. Garth is a Karalians he was excited he was going to get his lottery winner. She was his match, so now that he is in his prime he could starting breeding. He took one look at his lottery winner he knew he had to protect her and breed immediately yep they were going on a mission in deep space and boy did he have plans. I was gifted this ARC for an honest and truthful review.

Kurzbeschreibung Garth is intent on filling the hours aboard the fourth deep space mission with pleasure, in the form of his curvy human female, Tamzin. With his prime upon him, he knows he as to breed a son with Tamzin soon. So what better way to pass the time? Yet soon he learns another side of himself, a softer side, and he begins to feel less like a primal hunter, as his love for his female grows. Tamzin has had a tough life on Earth, and is relieved when she wins the lottery, and is given to Garth, although the shock of being told they are only stopping on Karal for two days, before going into deep space, is not welcome. But she sees it as her duty to help find a new home for the human race. Their journey takes them to a new world, a perfect world, but the world hides a secret, which means it will not be suitable for humans to colonize. Disappointed, they leave the planet, only to receive a distress call from another Karalian cruiser. When they go to investigate, they discover that the Karal are no longer the hunter, but the hunted. Can they outsmart the slavers and return to Karal? And when they do, will the Karal close their defences, or stand up and fight? Book four in the Warriors of Karal series.
