Justice for the ChildrenVon SpanishLadyI'm not going to tell you much cause then I'd be giving away the ending to this great series. Suffice it to say you will not be disappointed at all cause it is a roller coaster of emotions from the very first

book. I thoroughly enjoyed every single one of these books and I am hopeful we will read more into the lives of all these characters in the future, I would really love to visit them again, from Somewhere, Texas to Seattle, Miami and Las Vegas. Maybe even Russia? Hannah Lee is a Doctor, not a soldier and she'll be damned if she doesn't try her very best to stop this group of Rangers from using all that artillery they have. But has something in store for Hannah, her mate is among the Rangers and it is non other than the tough and burly Viper! Will two complete opposites be able to compliment each other? Viper wants nothing more than to kill and re-kill Adrian Rossi for all the horrors he has bestowed on all the women and children, he has seen it with his own eyes. Now this little oriental woman won't leave him alone, claiming that he is her true mate and she is going to disrupt the mission. But he feels such a calm when he is around her, one he has never felt. She even makes him forget all the horrors of his own childhood. Adrian Rossi comes face to face with his son Gabriel whom he has had caged for 9 years and a surprise awaits Gabriel. The Enforcers and Black Wolf Rangers are frozen by the atrocities committed by one man. I laughed, I cried and I jumped for joy. What a wonderful series!

Kurzbeschreibung With plans to kill a psychopath, nothing will stop him. Not even the magick. Holding a gun and storming a beach like a courageous soldier is strange territory for Hannah Lee, a quiet Seattle doctor. Stepping foot on that beach changes everything for her. Feeling an undeniable magickal pull, Hannah knows her real mission: find the wolf who sets her heart on fire. She never expected him to come in war paint and Kevlar, wielding an automatic weapon. But Viper has an agenda of his own--despite the attraction he so desperately feels. Will he succumb to the magick or will his vendetta stand in the way of what Fate desires? COMPLETED SERIES! While each book in the Moonbound series is a complete and satisfying romance arc, there is a larger suspense arc that is revealed in pieces and not fully resolved until the end of the final book. We highly recommend reading the books in order, and starting with Book #1, The Werewolf Cowboy.
