fantastisch Von emmakennt ihr das, wenn man vorm fernseher schreit "tu's nicht!", wenn die hauptperson eine falsche entscheidung treffen will? immer wenn nate mit sophy zusammen ist, ging es mir so. ich bin richtig aggressiv geworden, als sie mit (SPOILER!) dem test aufkreuzt. (SPOILER ENDE) leider gibt es solche frauen in wirklichkeit - das leben meiner schwester wird immer mal wieder davon erschwert...ich LIEBE filme und von daher hab ich keine soooo lange liste, die ich noch abarbeiten muss - aber lust, den ein oder anderen mal wieder zu sehen.ah, ja, und heier tipp fr alle: "high fidelity" ist ein film, in dem john cusack sein leben und seine beziehungen anhand von musik erklrt ;- ) (nach einem buch von nick hornby brigens, fr alle, die lieber lesen als gucken)ich liebe kelly orams bcher und dieses hier besonders! absolute leseempfehlung!!!!2 von 2 Kunden fanden die folgende Rezension hilfreich. So many feels! Von Faith Usually when I write reviews on books I love all I write is "feels, feels, so many feels". But today I will try to articulate those feels into words: witty banter, passion, exhilaration, excitement, fun, eager anticipation, awe, wonder, marvel, delight, adventure, passion. Can you tell that I really enjoyed this novel? Once I started reading it, I could not put it down and thanks to the movie-titles-as-chapter-titles concept and how amazingly the movies are entwined into the story, I now have a massive list of movies to watch over the next year (it will probably just be the next 2 months but I wanted to seem like I am capable of exercising some self-control). So to recap: this is 1. An awesome book full of feels and 2. at the heart of it all is a really sweet and totally worth it love story. This is great as a stand-alone book but also meshes in well with the other "Power of the Matchmaker" novels, kudos to all the writers involved.0 von 0 Kunden fanden die folgende Rezension hilfreich. cute romance with movie references Von Anne Katrin A cute romance and a nice idea to create a story around different movie references. The story is told by Nate who is a freshman in college. He has a music scholarship to a prestigious school in New York City and went there with his triplet brothers and his girlfriend. He starts to realize that he needs to breach out and do his own thing. He begins by moving out of the room he is sharing with his brothers. He moves in with Jordan, a girl who loves movies as much as Nate loves music. The two connect but Nate is still with his girlfriend and it takes a while for him and Jordan to admit that there might be more between them than friendship. I was a little irritated by the narration at the beginning - I felt I was reading a girls voice but then it was Nate who told the whole story. He also was a little unbelievable for not having any flaws. Neither did Jordan, except for maybe being a little boring. All in all the characters were lacking depth. They were all clichs: the perfect protagonist, be cute girl he wants to protect, the good looking players, the gay best friend, the bitchy girl standing in the way of happiness of the main characters. The story was enjoyable enough, a little too many clichs but the author toys well with them. I liked the idea, I wasn't as thrilled with the execution. I always find it annoying if a supposed movie buff only knows the most mainstream movies and supposedly great musician isn't breaching out of mainstream pop/rock. I guess that is supposed to make the book more attainable for a wide audience, but it stops me from loving it.

Kurzbeschreibung Music meets Movies in this sweet college romance from the bestselling author of Cinder Ella. So this is what a Pearl-approved guy looks like. She shook her head once and cracked a smile. Shes got good taste, Ill give her that. Youre an odd mix of sexy and adorable. Dont see that often. I was a little taken aback by the compliment, if thats even what it was. She may have just been stating what she considered to be fact. She laughed at my surprise and held out her hand to me. Nice to meet you. Im Jordan Kramer. Id been afraid of that. Youre a girl. Jordan laughed. Thats what it says on my birth certificate, but Im really glad you were able to figure it out without needing to read it. Nope. I definitely didnt need that. NYU freshman Nate Anderson is a triplet who is desperate to escape his wild and crazy brothers. After they screw things up for him one too many times, Nate flees his housing situation and takes the first available room for rent as far from his brothers as he can get. Enter his new roommate Jordan--a quirky LA girl who believes that everything in life has already been done in the movies. In this heartfelt tale of love, friendship and family, Nate learns how to deal with his new adult life using Hollywood films as a guide.\*\*\*This book is part of a multi-author project that features one recurring character the match maker but it is a STAND-ALONE novel.\*\*\*Content label: This is a new adult novel, however it is also a clean romance. Content rating is PG. There is little to no swearing with mild innuendo. Though a sexual relationship is implied there is nothing more than kissing in the book.
