Von Julie James : It Happened One Wedding (FBI/US Attorney Book 5) (English Edition) before purchasing it in order to gage whether or not it would be worth my time, and all praised It Happened One Wedding (FBI/US Attorney Book 5) (English Edition):

KundenrezensionenHilfreichste Kundenrezensionen2 von 2 Kunden fanden die folgende Rezension hilfreich. Not as good as the other booksVon Katharina F.I would like to give a 3.5 rating for this book but I had to make a choice between 3 or 4... so I decided to go with 3 because there were some things that bugged me about this book.I don't want to give away any story spoilers and that makes it a little difficult to explain my decision.At first I really liked Sidney Sinclair as a strong female character and her quips and sarcastic comments were fun to read. But there was a point when she kind of got ridiculous in the middle of the book.She was just so "biological clock" driven that I often got the vibe that it was kind of forced.Vaughn Roberts was an interesting character as well... at first. Until he got kind of "mushy" ...Yes, I know this is totally the point of such novels. But I adored the other "FBI/U.S. Attorney" books and "Something Like Love" is one of my favorite books. But this book here seemed so... not heading in a particular direction.The protagonists brother and sister didn't help to make it any better. Sidney's sister annoyed me right from the start.And at the end I had the feeling Taylor (as a competition for Vaughn) was just brought in so that there is the possibility of a new character for an upcoming book. Julie James could have done a lot more with this character in this story to build suspense for the romance rather than introduce him in one chapter and ditch him two chapters ahead.Maybe this book just lacked the "pseudo crime cases" like the other books which was like a red string through the books. A wedding preparation is just not as exciting as FBI cases (though there might be people disagreeing in this one...)But if you like Julie James and her books you are safe to read this. This book just had some weaknesses the other books didn't have (in my opinion).1 von 1 Kunden fanden die folgende Rezension hilfreich. Good storyVon JN12I find it hard to write a review without writing anything about the content. I don't think I point out any big secrets below, but if you want to read the book without any spoilers, it might be best to skip the rest of the review. If that is the case here a short form: I liked the book and recommend reading it.-----Obviously this genre is romance, but still: One thing that annoys me with many of these novels is the focus that is placed on the romance storyline, sometimes to the exclusion of all else. Some stories have side-stories, but they usually flow into the main stream of the story at some point and one gets the feeling that in that world nothing happens that does not impact the main story in some way.In "It Happened One Wedding" both protagonists have a life outside the main story and we see parts of it, even if it has no bearing on the romance. This allows the reader to get a feeling of who the characters are and makes the story more realistic.The romance itself is sweet and believable. I dislike novels where the emotions seem forced or the story is unbelievable. That is not the case here. I liked both characters and wanted them to be together. They also had nice scenes with sassy and funny dialogue.I am not a fan of big misunderstandings or the multitude of protagonists in romance novels who all seem to have PTSD. As the description of this novel already points out, Sidney suffered a "humiliating end to her engagement", but by the time the novel starts she already has adapted to some degree, while there isn't really anything major for Vaughn. There are no big misunderstandings, another plus.That probably leads to one of the not so stellar points of the book: Vaughn is portrayed as the bachelor type, but there is no really convincing reason as to why he would not want to commit. It took a bit too long for him to realise he was in love with Sidney - if he had reason for not wanting to admit his emotions to himself I might have understood, but there wasn't really anything in his back-story that would make him shy away from commitment or love. If he was this determined bachelor, the one-year relationship he had in the past would make no sense - apparently he has no problem with a longer relationship. So I didn't really get what took him so long to realize/admit his feelings and act on them.Another not so stellar point is that the side stories did not get wrapped up. I guess it could imply that their lives / the side-stories go on (and have no ending as such), but in the case of Vaughn the side-story was an FBI investigation close to completion by the end of the book and it would have been nice to know how it ended.In terms of grammar and vocabulary the book was good. Overall I enjoyed the story and would recommend reading the book.0 von 0 Kunden fanden die folgende Rezension hilfreich. Nice book for the beachVon Teresa209I really liked this one! I found myself laughing out loud at some scenes. I found it amusing, that everybody saw the sparks flying between these two protagonists, except themselves. I also like it, that you can read this one alone, without knowing Julie James other books, but when you know older books from her, you got a glimpse of a few former book protagonists and their lives. I only say "There are two :-)"....

KurzbeschreibungSHE KNOWS BETTER THAN TO SAY I DO After a humiliating end to her engagement, investment banker Sidney Sinclair is done with commitment-phobic men. But when her sister winds up engaged after a whirlwind courtship, Sidney is thrown into close contact with exactly the kind of sexy playboy she wants to avoidthe gorgeous best man. Shes stuck with him, for better or worse, until her sister walks down the aisle, but that doesnt mean she has to give in to his smooth advances, no matter how tempting they are BUT HE MAKES IT HARD TO SAY I DONT Special agent Vaughn Roberts always gets his man on the job and his woman in bed. So Sidneys refusal to fall for his charms only makes him more determined to win over the cool and confident redhead. Only what starts out as a battle of wills ends up as a serious play for her heart. Because the one woman who refuses to be caught may be the only one Vaughn cant live without PressestimmenPraise for theNew York TimesBestselling Author Julie James
