Von Petra AndreaIn general I love Sandrines books because her characters are very unique and she has a special kind of humor. If you haven't been reading book 1 of the series yet I highly recommend you read that first, because my crush for Jinx begun right there.I've been reading the book and you may not, that's why I just will tell

you what I liked and what not and by reading the book you'll find out what I'm talking about! Jinx is drummer of the Skull Blasters, a Heavy Metal band, and a love em and live em type of guy, his love of pussy sometimes gets him into hilarious situations. Good thing I wasn't anywhere in public while reading the part of his doctor's appointment, it really made my day and had me laugh out loud more than ones. Because of Jayden, a certain blond hottie with a bubble but, which he met at the mall while shopping with Garreth, Jinx is getting more and more bi curious. After a round of gay porn, a visit in a gay bar and a hot, steamy night of sex with said blond hottie, he gets a taste of his own medicine and didn't like it at all. By the way, I never heard of those glory holes in bathrooms before but found it very interesting, lol. Well, I loved the reactions of his band mates and most of all little Garreth Wolf, the youngest but most mature band member, always finding the right words to make almost every thing better. If you haven't already, you can read Garreth story in book 1 of the series. Because of two heavy metal finalists, the Skull Blasters had been invited to Singers, a casting show in California, for to get on stage and play with the winner. That's where Jinx sees Jayden again and had to learn the hard way that the blond hottie is a part of London Boys, a boy band and last season's winner of Singers. Well, that didn't go over well and from there Jinx has been an ass on more than one occasion. I don't like boy groups myself and agree on the na nana na part, but I really could have smacked Jinx more than ones up his head for his behavior. Boy, did I love the Moby Dick part, but also disappeared with a flash with the Backstreet Boys. You'll learn more into the book a lot about Jinx's insecurities and why he did handle some things the way he did, even though sometimes he himself didn't understand why he had being an ass. I really loved Achilles when giving Jinx his 2 cent. Let's say about 75% into the book and a lot of back and forth between the two Mc's, Jinx pulled his head out of his ass and started to do all that was needed to get his man. You will learn a lot about rock hunting and penguins, also parents getting second chances, which I'm not sure they deserved at all. I really loved this book and couldn't put it down until the end. There was a lot of fun, crabs (lol), some steamy sex, love and a bit of drama, for me everything a good book needs. I know that one of Sandrine's next books will be m/f, but I really hope not in this series! I sure know who I want to see Harley with and I would love to see Ransom with a certain dark haired hottie with arctic blue eyes, so no room for females there, lol. Last but not least, I wish y'all now Happy Reading and hope you get jinxed, too.

Kurzbeschreibung This book is the second in the series and is preceded by FRET. It can be read as a standalone. It contains homosexual relations and harsh language. A sneak peek to book 3 follows the ending. Jinx Jett is a rock superstar. As such, the hunky Skull Blasters drummer thoroughly enjoys the many perks of willing groupies, earning him a reputation as the band slut. Making it big and scoring hot women is something Jinx never expected. There's a little voice in the back of his mind constantly reminding him of how he used to be -- shy, overweight and acne prone. One night in a gay bar turns life upside down when Jinx runs into Jayden Dempsey, a kid he's been fantasizing about since giving him his autograph at a mall. Long-held insecurities keep Jinx from fully committing to anyone, and he may lose Jayden if he can't put his past behind him. Jayden Dempsey always wanted out of his life in small-town Alabama. When his parents kicked him out after he told them he was gay, Jayden decided the time was right to move on. He crosses the country to try out for 'Singers!', a show that propels unknowns to stardom. In a twist, producers choose him and three others as winners and form a boy band called London Boys. This season, the show brings Jayden and the guys back for the finale. Surprise! The contest's heavy metal finalist will be singing with Skull Blasters. Jinx and Jayden's initial meeting doesn't go so well, and Jayden's stunned when the guy he's crushed on for years turns out to be a total jerk. It doesn't stop him from falling into Jinx's arms every time they're alone, but Jayden didn't sign on for one nighters. He wants Jinx Jett, baggage and all. Can a former teen outcast put rejection behind him and embrace the acceptance standing right in front of him? How much will one boy bander put up with from his rock idol before enough is enough? Can they make it work? Or are they jinxed in love?
